Sockeyes In The Fraser
The Run Has Commenced and Boats Start the Fishing Season.
Mr. Joseph Martin Has a Passage At Arms With Judge Walkem.
Brockton Point Association Report Handsome Receipts From Lacrosse.

From Our Own Correspondent.
 Vancouver, B. C., July 10.—Another adjournment has been made in the South case until Thursday next. Sir Herbert Tupper, for the defendant, angrily attacked Stewart Livingston for the plaintiffs, and characterized the plaintiffs and their counsel as conduct as persecution. The adjournment was asked for to enable Police Constable Campbell to secure alleged evidence in Cumberland.
 The Code perjury case was again remanded. Judge Walkem setting the trial for the 28th. Mr. Jos. Martin loudly objected. Judge Walkem said there was another way besides leaving the court to treat him. Mr. Martin replied, I don't go to do it. He afterwards apologized.
 The sockeyes have arrived on the Sound, and some boats caught 20 in the Fraser last night.
 Mr. Huggins, the well known mining engineer and 10 men, left for Gribble Island yesterday, for the Canadian-American mines. They are going to build a road to take out the ore which has been piling up on the dump for three years. A smelter is also to be built at once, with a capacity of 100 tons a day, to treat the ore from this and other mines on the island.
 There is little news in connection with the industrial trouble in the lumber world. Attempts to secure lumber from outside sources is not as yet made with marked success. Many meetings are being held daily by loggers, millmen and carpenters.

A big syndicate is after a large group of claims on the Britannia League. Mr. W. Dempster is here, of London, England, to examine the mines as a mining expert. It is French and English capital that is interested.
 The more superstitious class of the Chinese in Chinatown are alarmed over a visit of a well known Chinese devil called Kawi, or big devil. The peculiar function of this devil is, to peacefully pull out the hair of the Chinese addicted to opium, as a warning to them to stop. The devil visited Mah Gun's establishment at 140 1/2 Dupont street, and pulled out a Chinaman's hair while he was asleep. He did not know the devil visited him until the others notified it out. And the whole neighborhood became alarmed.

The City Council concluded this afternoon that representatives of the Vancouver, Westminster and Yukon Railway, on the further details of the plans and desires of the company, touching the entrance of the road into the city.
 An attempt was made yesterday by Sheriff Hall to sell the steamer Saga at auction. The steamer is worth about \$10,000. D. G. Macdonnell has a claim of \$3,000 on her. Joseph H. Ross, sell, \$220. The only bid, \$800, was refused.

The visits of sneak thieves to cabins and hotels are becoming frequent. Yesterday R. H. Winn had his cabin entered and his trunk stolen, containing shoes, curtains, crochets, sideboard ornaments, silk coverlets, fancy cushions, and water pitchers.
 News comes from Alberta on properties that the mineral waters struck on the Vancouver properties have been finally stopped after three months work. The well is down 250 feet.
 Mr. Burdiss, secretary of the Cannery Association, states that there were no fish out yesterday, and no fish were running. In the meantime every train leaving for Seattle is crowded with Japanese. The Japanese are making every preparation to fish.
 The fifth annual field day of Queen's school, Vancouver, was held this afternoon at Brockton Point. Dr. Underhill officiated.

There was a meeting last night of the Board of Management of the Brockton Point Athletic Association. The record showed that there was taken in at the gate on the first of July, \$1,583, and on the second of July, \$882. Net receipts were over \$1,000; \$800 of this money was taken for the new grand stand. It was decided to send a track team to Victoria for the big meet there.
 A first class assault-at-arms is being arranged for to take place in the park towards the end of the month.
 A tobaccoist named Obery has been missing from his house on Westminster street for some weeks. The police are investigating the matter.
 A new North Vancouver crab factory has started operations.
 Bank clearing for the Mainland of British Columbia for the week ending July 9 were \$1,542,641, or \$549,000 more than last year.

An old and respected resident in the city, in the person of Mrs. Harry Birdridge, died in the city hospital yesterday, aged 78.
 The B. C. Electric Railway announced that a half hour system will be established between Vancouver and Westminster next year.
 A meeting of the executive of the Royal Agricultural & Industrial Society was held in Westminster yesterday. The offer from Messrs. Hitt Bros. of Victoria to give fire works display was filed for reference. Big drawing cards are being arranged for the way of special attraction.
 The Rev. H. M. Irwin, of Westminster, has been appointed by the American Foreign Missionary Board for foreign mission work in Palestine.
 In Westminster 1,025 names have been registered on the new voters list. There were 1,640 names on the Dewdney list, the old list containing 1,179. Richmond list has 172 names. The old list contained 246. Delta's list had 200 names. The old list contained 139.
 Mr. J. B. Charleson, superintendent of the construction of the Yukon Telegraph line, has returned from an inspection of the line, and is enquiring into the management of the financial affairs of the line, and is enquiring into the salaries of the men, although the checks for the salaries had arrived. Mr. Charleson says that the Valdez cable, which will connect with the Yukon telegraph system, will be open on the 16th of the month.

"DANNY" MAHER HURT.
 London, July 10.—"Danny" Maher, the American jockey, had a serious motor car accident near Caterham, Surrey, this afternoon. He was thrown out of an automobile, fracturing the base of his skull and sustaining other injuries. A London specialist has been summoned.

HEAVY WEIGHT CHAMPIONS.
 E. Graney Will Be Referee When Corbett and Jeffries Meet.

San Francisco, July 10.—James J. Corbett and James Delaney, the latter acting for Jeffries, have agreed upon Edward Graney as the referee for the heavyweight championship fight to take place here on August 14.

BANK CLERK WANTED.
 Charged With Obtaining Money by False Pretences.

Winnipeg, July 10.—A McLeod correspondent wires that a warrant has been issued for the arrest of A. H. Lindsey, clerk in the Bank of Commerce, at McLeod, on a charge of obtaining money by false pretences. Lindsey is supposed to be somewhere near Regina.

J. R. Wilson was selected first mayor of the newly founded town of Saskatoon, today.

MONSTER LOG.
 Enormous Piece of Spruce Towed to Tacoma.

Tacoma, July 10.—What is said to be the largest log ever floated in Puget Sound has been towed to the Capital Box Factory pond. It is a 40-foot spruce log, nine feet through at the small end and fourteen feet through at the large end. It was cut on the Skagit river banks and towed to the mill by the tug Elf, which had all she wanted to do to handle the one log. It is said to be the largest log ever brought to any mill in this district. There is no mill in the state, and probably none in the world, that can cut the log as it lies. It will be necessary to blast it with powder before it goes into the mill.

To be Opened Tonight With an Excellent Open Air Band Concert and a Display of Fireworks

CHINESE SOLDIERS DESERT TO REBELS
In Spite of Demoralization Situation Better As Famine Disappears.

Pekin, July 10.—The demoralization of the administration in the province, Kwang by the lately cashiered officials is indicated by the reported desertion to the rebels of 1,000 soldiers with their arms. Notwithstanding this, the conditions are better as the famine is disappearing. According to reliable foreigners the leader of the Yunnan rebellion who, with his mother was beheaded by the governor, was not defeated, but surrendered on the advice of French consul, to whom he appeared, and said that he had been forced to usurp the authority for self-preservation from the opposing factions. Heretofore requested the consul to represent the situation to the governor. These representations were made, and the consul advised the rebel leader to surrender. The court rewarded the officers concerned in the subsequent decapitation of the rebel leader. Foreigners regard the affair as an act of treachery and feel difficulty in France, on account of the consuls connection.

SMALLPOX IN MONTREAL.
 Develops in Fire Station and Some Refuse Vaccination.

Montreal, July 10.—Smallpox has developed in the families of some city firemen. An inspection of stations discovered that several had not been vaccinated. Several refused to submit to the vaccination, and an order has been issued that those refusing vaccination must leave the city force.

BULGARIANS CONCENTRATING.
 Training in Macedonia Under Officers Sent From Sofia.

Salonia, European Turkey, July 10.—In spite of the reassuring official advices from Constantinople, the belief prevails here that war between Turkey and Bulgaria is imminent. Bulgarians in Macedonia are being reorganized under officers sent from Sofia, to act as scouts, and guerrillas, and a large concentration of troops is taking place in the hills near Yenidje. Through orders have been issued to avoid an immediate conflict with the Turks, who are concentrating large forces at Koumanovo.

His Holiness Astonishes All
Doctors Amazed That So Old a Man Stands Sickness So Well.

Second Operation Performed And Results Prove Most Satisfactory.
At Two This Morning Patient Awoke From Long Sleep Refreshed.

Rome, July 10.—On leaving the sick room this morning, Monsignor Angeli remarked to those who surrounded him and asked for news, that if it was not known that the Pope was dangerously ill, from his appearance at that time no one would say he was not in his normal condition. The Monsignor added that the Pontiff referred to several different matters, recalling exactly the minute details and remembering figures and dates with marvellous promptness, and all this to the accompaniment of snuff taking. The same impressions are formed by Count Camillo Perini, who visited the Pope, after Mgr. Angeli. The doctors said, and the operation followed.
 Dr. Mazzoni's operation this morning was almost identical with that of Tuesday afternoon, the patient lying on his couch with his side exposed. The skin above the affected parts was washed with a solution of alcohol, cocaine was hyperaemically injected, and Dr. Mazzoni inserted a trachea tube, which by suction, drew off the vitiated matter. The operation was comparatively painless, and was performed without recourse to chloroform or other anaesthetics.
 After the operation the Pope felt so

BETTER TIMES AT LADYSMITH
Miners Returning to Work And Town Now Assumes the Normal.

From Our Own Correspondent.
 Ladysmith, July 10.—The big Norwegian steamer Hero arrived from Friesco and commenced loading her 6,000 tons of cargo of Wellington coal today, taking 500 tons aboard. Steamer Wellington, with cargo of California burros for service in Extension mines, is expected tonight or tomorrow morning.
 The purpose of the meeting called for Sunday night in Finn's Hall by the foreign Socialist element, is alleged to be to take steps to try to stop work in the Extension mines, as agitators from Cumberland have signally failed in the same endeavor. Miners are signing the agreement with the company in large numbers every day, and more miners are arriving from distant parts constantly, ready to take work at the terms offered.
 Merchants report business steadily improving, and a more better feeling exists. Coal in increasingly large quantities is coming down daily, and the bankers are being filled.
 Preparations for blowing in the Tye smelter again are nearly completed. There are large quantities of ore in bunkers ready for the start, and an enormous amount of coke on hand.

CONVICT ESCAPES.
 Toronto, July 10.—Chas. Quackenbush escaped from the Central prison this afternoon by digging a hole through the storehouse wall. He was in for burglary.

ROSSLANDER'S TROUBLES.
 Montreal, July 10.—New York special says Ernest Kennedy, a prominent resident of Rossland, B. C., wanted by the management of the Holland hotel, N. Y., for passing a bad draft for a large amount a year ago, was located in Chicago yesterday. Upon being located by detectives, Kennedy immediately offered as set-off 300 shares of stock in the Milwaukee Trader's Co-operative company, and also packages said to contain jewelry ornaments for women's wear.

New York, July 10.—Ernest Kennedy of Rossland, B. C., who gave bad draft here, has been caught living in big style in Chicago.

Government Is Reticent
Still Refuses to Announce Its Grand Trunk Pacific Policy.

Hon. Mr. Blair In the Sulk
And May Retire From Cabinet.

Ministers Nonplussed at a Reported Interview of Mr. Preston.

From Our Own Correspondent.
 Ottawa, July 10.—The government still declines to announce its Grand Trunk Pacific policy. Mr. McCarthy, for the company, has given notice of several amendments to the bill, including a reduction of the capital to \$40,000,000, and is asking power to construct branches connecting with the government Eastern lines.

In redistribution concerning the Ontario schedules, there were many disagreements. Commissioner Blue today refused to answer questions put to him by the public account commissariat. The House will be asked to compel him to answer.
 Hon. Mr. Blair is sulking because he has not been sufficiently consulted on matters of government policy. It is said he will retire from the cabinet shortly.
 Hon. Messrs. Wilson and Green have been invited to, and will accompany the parliamentary party, which visits Montreal, tomorrow.

At the railway committee today the Nicola, Kamloops & Similkameen Coal & Railway Company bill asked that a British Columbia railway be brought under the Federal Railway Act. There was some opposition to interference with provincial control, and an amendment was moved to make the application of this bill dependent upon the British Columbia legislature. The amendment failed to carry, and the bill was reported.

GALT FOOTBALL TEAM.
 Winnipeg, July 10.—Galt football team defeated Manitou team at Manitou, 4 to nothing.

The experiences of the Barr colony and its mismanagement by government officials, and Rev. Mr. Barr, created much discussion in the Commons today. Mr. Clarke demanded a full enquiry. Hon. Mr. Sifton said the government was not responsible for the colony beyond reserving certain sections of land. There had been no financial arrangements with him. To this Mr. Gordon replied by quoting an interview with Commissioner Preston, who declared the government assumed full responsibility for the colony, that Mr. Barr was to receive 25 shillings per emigrant from the steamship company, and would probably get seven shillings per emigrant from the Dominion government. The ministers were greatly nonplussed at this, and tried to break the effect of the interview by challenging its accuracy, but without avail.

Mr. Wilson had his first conference with the Conservative leaders last night, and discussed with them the plan of campaign in British Columbia. He will, with Mr. Green, see Sir Wilfrid Laurier and his colleagues later.

Alexander Beggs, the octogenarian lobbyist, arrived from Victoria yesterday.

PATIENT COMITS SUICIDE.
 Chatham, Ont., July 10.—William Baxter, a patient at the Chatham hospital, sent his nurse for a glass of water, and during her absence opened the window and threw himself to the ground two stories below. His skull was fractured and he died in two hours. Baxter was a son of Col. Baxter, formerly chief of police of Chatham, and was home from New York on a vacation when seized with sickness. He leaves a wife and two children.

Poplar Creek
A Good One

Stamp Mills Only Needed to Make the Camp a Wonder.

Ore Free Milling And Similar to Famous Drum Lummon.

Kaslo, July 7.—M. Kerlin, who has been so fortunate in locating good mining claims on Poplar creek, arrived here this morning for a supply of provisions. Mr. Kerlin is a very much elated over his good luck and shows some specimens of very rich appearing quartz from his ground 100 yards from the railway. He is having some assays made, and will immediately return to the creek to open up the ore bodies.
 He says: "We have found some of the best mining ground that I have met with in my experience in actual mining work and operating on a large scale. I am fully assured that given a limited amount of capital, it won't take much, and a few stamps, that the Poplar, Tenderfoot and Cascade camps are going to be wealth-producers far beyond the anticipation of the most sanguine."
 The trouble heretofore with those who have been working in the district has not been the want of rich ore, but because they did not understand the character of the ore met with. The silver and gold are both present in incredible values, and the beauty of it is that all the values can be saved with stamp mills. The ore is free milling and of a character very similar to that of the famous Drum Lummon. The assays on our ore reported already are correct, and I am testing the whole lot with hope of being able to begin shipping very soon, as it is my opinion that all the lead will stand shipping and smelting charges with a good profit. But what we want is stamp mills. Nearly all those who have gone in lately are buying camps and preparing for active operations.

"Dan Cosgrove made a strike on a parallel lead to ours that shows gold to nearly every pan of crushed quartz, and two Swedes have three claims beyond Cosgrove, from which they are taking ore from a vein twelve inches wide that runs 2,000 ounces in native silver, and from which they can gold. The ladies have good claims and are a great acquisition to Poplar Creek camp."
 A number of men, among them P. Kelly, left here today on the steamship Hercules, with supplies to begin active work. Trains are to be running on the Lardo branch Saturday next.

ROSSLANDER'S TROUBLES.
 Montreal, July 10.—New York special says Ernest Kennedy, a prominent resident of Rossland, B. C., wanted by the management of the Holland hotel, N. Y., for passing a bad draft for a large amount a year ago, was located in Chicago yesterday. Upon being located by detectives, Kennedy immediately offered as set-off 300 shares of stock in the Milwaukee Trader's Co-operative company, and also packages said to contain jewelry ornaments for women's wear.

New York, July 10.—Ernest Kennedy of Rossland, B. C., who gave bad draft here, has been caught living in big style in Chicago.

Local News

Broke Jail.—On Thursday evening

three prisoners broke jail at Chemainus.

They are still at large, and it is

believed they have secured a boat and

are making for the American side.

County Court.—Nichols vs. Donagan.

Judgment for defendant, A. J. Kitto

for plaintiff, J. P. Walls for defendant.

Pletcher Bros. vs. Cheek. Judgment

for plaintiff for \$100. J. P. Walls for

plaintiff; C. A. Bury for defendant.

A Busy Day.—Yesterday was a busy

day with the launch Kootenay, operat-

ing on the run up the Gorge. On the

afternoon trips the boat was filled each

time, many being tourists, who expressed

themselves as charmed with the

scenic beauties of the magnificent Arm.

Making Good Progress.—Excellent

progress is now being made in the work

of placing in position the piers for the

new Point Elliot bridge. The second

pier is rising rapidly and the splendid

weather now prevailing is assisting the

progress of the work very materially.

Died at Hospital.—The death occur-

ed yesterday at the Jubilee hospital

of Mrs. David Lindsay, of 325 Douglas

street. She was 38 years of age and a

native of British Columbia. The funeral

will take place tomorrow at 2 p. m.

Rev. Mr. Westman will officiate.

Killed an Otter.—While out after

destructive game, Marmaduke Fraser, of

Happy Valley, Comox district, suc-

ceeded in destroying a large otter which

had been prowling around the

raunch for some time. The animal was

run from tip to tip was four feet.

White Horse Ore.—Per the Princess

May, which arrived yesterday morning

from the North, Capt. John Irving re-

ceived shipment of 100 pounds of ore

from his mine, the Royal Arctic, at

White Horse. The ship, sent is simply

a sample of the product of the mine. The

ore is peculiarly beautiful, and in addition

is remarkably rich.

Meeting Postponed.—The meeting of

the electors of Esquimalt school district

which was to have been held yesterday

evening, has been postponed until next

Friday night. The object of the meet-

ing, as already explained in the Colon-

ist, is for the purpose of discussing the

question of the election of trustees and

the engaging of teachers.

Serious Fire Averted.—What might

have proved a very destructive fire was

narrowly averted at Leigh's sawmill on

Thursday evening. A blaze was detected

in the boiler room, and when dis-

covered, it was most of great headway,

but when the mill's fire apparatus was

brought to bear it was soon extinguish-

ed. This is the second small fire which

has occurred at the mill within a short

time.

Railway Fares.—From August 1 to

14 the Great Northern railway will sell

tickets from Chicago to Seattle and re-

turn, good until October 15, at the rate

of \$50. From St. Paul, Minneapolis and

Duluth the round trip rate will be \$45.

stop over privileges and diverse routes

returning. This rate is put in effect on

account of the Trans-Mississippi Con-

gress, which meets in Seattle on Aug-

ust 18 to 21.

Garden Fete Today.—A large atten-

dance and an enjoyable time is antici-

pated today at the Reformed Episcopal

garden fete and musical concert to be

held on the spacious grounds sur-

rounding the residence of Senator Mac-

donald. An energetic committee has

had the arrangements in hand, and as-

sure all attending a good time. An ex-

ceptionally interesting programme of

games has been arranged, which will be

carried out in its entirety.

The Cadet Corps.—Those interested

in the organization of a cadet corps in

the High school are waiting until there

are sufficient recruits available to bring

the strength up to that required by the

regulations. A sample uniform army

from Montreal is on hand, and has cre-

ated a favorable impression. It is of

grey tweed with detachable facings

and buttons. The tunic is of the Nor-

folk pattern, and very neat. The de-

tachable arrangements are adopted in

order that the uniform may suit the pur-

poses of an every day suit.

Back from Dawson.—A. J. Morris,

traveler for J. Piercy & Co., has just

returned from a trip to Dawson. He re-

ports business in Dawson to be on a

good basis, and in the dry goods line

he believes Victorians will hold their

own against all competitors. Before

leaving Dawson he saw over a tenth of

the year's clean-up. Over a million of

it was piled up in bricks in one bank,

and in another pile there was half a

million more. Mr. Morris predicts that

the total clean-up will be in the neigh-

borhood of eleven or twelve millions.

Navy League.—At the monthly meet-

ing of the committee of the Navy

League, a letter was read from Hon.

Mr. Justice Martin, stating that he

found himself unable to accept the of-

fice of president for the ensuing year,

to which he was unanimously elected at

the last meeting. This was received

with much regret, more especially be-

cause His Lordship has hitherto been

such a loyal and energetic worker for

the league. A. B. Fraser, sr., was

unanimously elected, and cheerfully ac-

cepted the office of president. A sub-

committee, consisting of Messrs. A. B.

Fraser, sr., Capt. Clarke, J. Peirson

and G. W. Woollett, was appointed to

consider and arrange how best to car-

ry out the prize essay scheme for the

coming year, as well as probably some

excursion or outing for the members

and friends of the Imperial naval re-

serve, working on local steamboats, be-

ing able to perform their drill and re-

ceive and retainers at this station

is also engaging the attention of the

committee. The meeting adjourned to

meet on August 12.

Death's Hand.—The death occurred

yesterday noon at the Jubilee hospital,

of Mrs. John Denton. Deceased was

53 years of age, and her death was

caused by the announcement of the ar-

rival of her husband today from Nanaimo.

Constables at Sidney.—Constables

Harry McInnes and W. H. Lomas, of

Duncan, paid Sidney a

flying visit yesterday afternoon. They

were traveling on one of the police

launches.

The "King Edward."—The govern-

ment dredge King Edward is expected at

Sidney before she comes here. She

will dredge the ferry slip, which is at

present too shallow for the steamship

Victorian on very low tides.

The Hay Crop.—Haying is in full

swing on the Saanich peninsula and Vic-

tor's district, the fine weather of the

past week being a boon of no small or-

der to the farmers there. A very heavy

crop has been cut and to all ap-

pearances will be safely cured and stacked.

ASTOUNDING APATHY.—Nanaimo com-

plains of the same astounding apathy

prevailing at the Coal City in respect

to registration as is the case in Vic-

tor's district. The citizens of Nanaimo

have entered their names on the voters'

lists, a number which leaves possibly

500 to be heard from, or, at the lowest

computation, 300.

Temperance Worker Coming.—Mr

BASEBALL.

The ball game last night at the Caledonia grounds between the Legal Lights and the Bankers resulted in a victory for the former by the narrow margin of one run, the score being 5 to 4. The Bankers made a very favorable start, scoring early in the first on a hit by Bell and a lovely sacrifice by Jack Cornwall. The Legal Lights were victorious in their turn at the bat, the brilliant holding of the banks being greatly admired. In this inning Corbett, the Bankers' centre fielder, covered himself with glory by making a brilliant catch of Patton's long drive, which made good for three balls. He also made a marvellous catch in the fifth of a high fly by McDougall. The battery of the Legal Lights proved very effective. Blackburn holding the Bankers down to three scattered hits, while he had twelve strike outs. This is the first win of the Legal Lights, and they are anxious for the seals of the Oskifus on Monday next. The score by innings follows:

Bank	1	0	0	1	0	0	0	2	4
Legal Lights	0	1	0	2	0	1	1	0	5

The following is the standing of the clubs in the Coast League:

	Won.	Lost.	Pct.
Los Angeles	57	29	.663
Sacramento	53	34	.607
San Francisco	52	30	.633
Oakland	40	54	.426
Seattle	31	62	.333
Portland	29	49	.372

The following is the standing of the clubs in the American League:

	Won.	Lost.	Pct.
Boston	41	28	.591
Philadelphia	39	28	.582
Cleveland	33	30	.524
Chicago	31	31	.500
New York	29	30	.490
Detroit	29	31	.483
St. Louis	25	32	.438
Washington	18	38	.320

The following is the standing of the clubs in the National League:

	Won.	Lost.	Pct.
Pittsburgh	47	22	.681
New York	42	22	.657
Chicago	38	28	.573
Cincinnati	31	29	.517
Brooklyn	28	33	.457
St. Louis	26	33	.441
Boston	26	36	.419
Philadelphia	19	43	.306

THE TURF.

An excellent programme of races has been arranged for the meet this afternoon at Bowker Park, under the auspices of the Victoria Driving Club. The first race will be a gentlemen's driving race, best two in three heats, for which the following have entered: Nelly McLean, owned by J. McLeod; Lizzie E., owned by Dr. Humber; D.D., owned by J. Fisher, and Welsel, owned by J. H. Gray.

The next race will be a "named" race, mile heats, best two in three. In this event there will be much rivalry. Among the contestants will be Killarney E., owned by the Province Clear Company; J. Jennings, owned by D. A. Taylor; Tyne Tess; Dr. Humber's Victoria Girl, and J. H. Greer's Padra.

Among the events of the day will be the meeting of Fanny Putnam and Capt. John, a two-year-old by Tennyson, of which the former is driver. This youngster, it is stated, can give the mare a hard race, and the latter has a record in British Columbia of 2:13.

CRICKET.

For the first time in the history of cricket in Victoria the Victoria Cricket Club will have three elevens in the field this afternoon.

The first eleven will try conclusions with the Garrison Cricket Club at Beacon Hill, commencing at 2 p. m. sharp.

The second eleven will again meet the Periwinks on Goodfellow Field, and will try hard to turn the tables as the Periwinks have proved victorious twice running.

What should be a most interesting game will be between the Victoria A. team and H. M. S. Amphion at the Carlton grounds at 2 p. m. sharp. Following are the three elevens:

First Eleven—D. Mendez (capt.), D. W. Rogers, Wm. Grogan, L. H. Garnett, W. York, L. York, R. Jaeger, W. P. Gooch, R. H. Scherhorn, G. G. Giospie and L. B. Trimen.

Second Eleven—H. J. Martin, A. Martin, P. Richardson, R. D. Dugan, F. W. Ashby, H. Cobbett, R. G. Monteith, N. Hardie, Jas. Anderson, W. T. Williams and J. Law.

Victoria A. Team—G. A. Taylor, M. R. C. Worlock, H. C. Bethune, B. J. Perry, W. A. Ward, J. D. Bonchis, H. M. Grogan, A. S. Reed, B. H. T. Drake, H. C. Marsh and L. H. Solly.

LACROSSE.

The game today between the Vancouver Argonauts and Central Juniors will be called promptly at 3 p. m. at the Caledonia grounds. No admission will be charged, but a collection will be taken for the Argonauts.

Both teams are confident of victory, and a hot game is expected. The teams will line up as follows:

Centrals.

Goal, Rodriguez; point, Chig; cover point, Donzai; 1st defence, Lawrence; 2nd defence, Morris; 3rd defence, A. Saragosa; centre, Sweeney; 2nd home, McDrew; 2nd home, H. Stargish; 1st home, Ogden; outside home, Stargish; inside home, Knox; Reserve, defence, Parr and Exall; home, Crawford and Walker; Field captain, R. McDonald.

Argonauts.

Goal, Gibbons; point, O. Johnson; cover point, Mitchell; 1st defence, Davis; 2nd defence, Hancock; 3rd defence, Hamilton; centre, Reaney; 2nd home, Clarkson; 2nd home, Kerfoot; 1st home, Hamilton; outside home, Godfrey; inside home, M. Johnson; T. H. Cusack will act as referee.

LET OTHERS EXPERIMENT.

There is always some thing new in the way of medical treatment and you are constantly invited to try new-fangled, unproven remedies. Let others experiment and so risk health and lose time. Dr. Chase's Kidney-Liver Pills have been tried in the curable of time, with the approval of public opinion and demonstrated their right to a place in every home as a family medicine.

"I am so glad," said Mrs. Oldcastle, "that there seems to be a promise of a real Shakespearean revival."

"Is there?" asked Mrs. Packingham. "I'll surely be a good thing for this town. Revivals always do lots of good, even if it is a little bit of a forward to backslide afterward. I never knew before that Shakespeare was a Methodist."—Chicago Record-Herald.

ANOTHER STRIKE ON ARCTIC BEACH

Gold Discovered in Quantities Between Yakutat and Icy Cape, Alaska.

Gold in the form of nuggets is being almost as heavily paying quantities as in the famous beach sands of Nome has been discovered, says the Seattle P.-L., on the Alaskan shore where the American White river empties into the sea between Cape Yakutat and Icy Cape. Yakutat is the nearest settlement of any consequence. Mike Marvich, a prospector, asserts that in June he took out with a crude rocker \$12,000 worth of placer gold in 11 days. He had no assistance, the clean-up being the result of his own labor. Marvich is now at the diggings.

News of this find, which, if as rich as represented, is one of the most remarkable ever made in Alaska, came from the North on the Alaska Commercial Company's steamer Bertha, which returned to Copper River and Cook inlet Tuesday evening. Marvich is a trained prospector, and he is said to be a thoroughly reliable man. He has been prospecting on the coast between Yakutat and Valdez since the opening of the season.

In the region there are said to be many evidences of the existence of oil. The new find is but about 100 miles south of the mouth of the Copper river. The gold is distributed through sand very similar to that on the Nome beaches, which yielded in excess of \$2,000,000 of fine placer gold during the two years succeeding the first discovery.

Those in possession of the information respecting the new discovery have been guarding it sacredly. There are probably not more than ten men between Cape Yakutat and Icy Cape.

On the steamer Excelsior, which sailed July 1, a party of 10 men, headed by T. G. Thompson and P. H. Hinckley, took a possession for the White river diggings, which they have probably reached by this time. Yakutat, as stated, is the nearest point of call for the regular steamers, and from that point those bound for the new camp will travel along the beach a distance of 15 or 20 miles.

A GUARANTEED CURE FOR PILLS.

Itching, Blind, Bleeding and Protruding Piles. No cure, no pay. All druggists are authorized by the makers to refund the money where it fails to cure any case of piles, no matter of how long standing. Cures ordinary cases in six days; the worst cases in fourteen days. One application gives ease and rest. Refunding instantly. This is a new discovery and it is the only pill remedy sold on a positive guarantee, no cure, no pay. Price 50c. If your druggist hasn't it in stock send 50 cents in stamps to the Farris Medicine Co., St. Louis, Mo., who also manufacture Laxative Bromo-Quinine, the celebrated Cat-Cure.

United States Section Director Hyatt reports from Great Salt Lake that the famous body of water is gradually sinking. The surface of it is now two and a half feet below normal. The famous lake is apparently drying up.

COLUMBIA RIVER PACK A FAILURE

American Cannermen are Very Much Discouraged at the Outlook.

Should the Fraser river cannermen have a year of peace, they will have companions in their misery.

"The pack of salmon on the Columbia river during the month of June was most discouraging, and while the outlook at the end of May was very bright, the general situation can now be summed up as considerably worse," says the Pacific Fisherman.

During the month there were times when there would appear to be absolutely no fish in the river. There now remain but seven weeks of the season, and in fact there is no hope of putting a big pack or even equaling that of last year.

July, 1902, the pack of the river was placed at about 125,000 cases, this being an estimate carefully made at that time, and which subsequently proved to be almost daily correct. This year the pack for the present is not much more than 50,000 cases, and not likely to reach 60,000. This year's pack is divided among 15 of the 17 canneries operated this year, and any one of these could have put out the entire pack in the two and a half months that the season has been open.

"It is safe to say that never before since the salmon industry reached any proportions was the pack so small at the 1st of July. The outlook for the rest of the season is a matter of absolute uncertainty, although it is expected to be good, but the same was expected of June. During nearly the entire month there has been an excessive flood in the river, which has prevented the operation of the seines, traps and wheels and seriously interfered with the gill-nets. This fact has been the main cause of the pack being so small, but the gill-nets, who have kept their boats in the water have shown that the fish have been scarce."

GOOD PLACE FOR IT.

The Italian legation at Peking is installing the Marconi system of wireless telegraph. If there is one place on the earth where a wireless system is likely to prove valuable, it is in Peking. In 1900 it would have been worth a fortune to the imprisoned legations, harrowed by the grave fears and threatened with extermination by the wrathful natives. They could have informed the outside world of their predicament and have relieved us of a great fear.

Peking is not far from the coast, 100 miles or thereabouts, and it is proposed to keep the legation in communication with the ships in the harbor of Pechili, near Tientsin. In the unsettled condition of the Chinese empire, a danger to foreigners always exists. No one can foretell when it will become imminent—maybe never, maybe to-morrow. The foreign legations are, it is said, will never again be caught in their previous condition of unpreparedness; but in any event the wireless telegraph will be useful.—New York Commercial.

PERSONALS.

Mademoiselle Kern, principal of the Granville school, Vancouver, is staying at the Balmoral.

Dr. McGuigan, city coroner of Vancouver, was home yesterday morning via the V. T. & S. railway.

Bert Franklin, formerly of this city, but latterly of the Far North, arrived from Skagway by the Princess May, and intends to remain south until next spring. Mr. Franklin has been connected with the Dominion Public Works department at Dawson for some time, but is satisfied with one winter spent in the Yukon.

Mrs. A. J. Trugheim, of Dawson, arrived by the Princess May and registered at the Brunswick hotel. She is on her way to Ottawa.

Mrs. James W. Wilson arrived from Dawson on the Amur. She will spend some time in the city visiting her parents, Mr. and Mrs. Fred Oliver of Superior street.

Capt. H. P. Beecher and Mrs. Beecher were passengers from the Sound by the Clallam yesterday morning.

J. C. Thomson came over from the Sound yesterday morning.

C. M. Marpole and wife, of Vancouver, are in the city, guests at the Driard.

Dr. T. G. Moody came down from Vancouver last evening.

J. B. Lovell has returned from a visit to the Mainland.

D. Spencer was a passenger from Vancouver on the Chatter last evening.

J. J. Shalness returned from Vancouver yesterday evening.

Herman Erb is over from Vancouver. J. Wilson, superintendent of C. P. R. telegraphs in British Columbia, is in the city.

Registered at the Hotel Davies yesterday were: W. R. McKay and wife, San Francisco; Mrs. J. C. McLeod and daughter, Vancouver; L. H. Bruce, Walkerton, Ont.; K. McElroy, Vancouver; W. Marriot, Pender Island; F. V. Moffet, Tacoma; F. C. Jones, Grand Prairie; Geo. de Wolf, Vancouver; Mrs. Geo. V. Williams, Boston; Capt. John Johnson, Seattle; R. N. Tinen, H. B. Tinen, K. D. Tinen, Chicago; Dr. and

Mrs. G. E. Babbitt, New York.

D. Kane, of Seattle, one of the head officials of the Boiler-makers' Union, is a guest at the Queen's.

H. W. Roberts, a tourist of Boston, is at the Queen's.

Mrs. C. M. Lovitt and children, Mrs. B. B. Whitney and Miss O'Neil, of Seattle, are at the Queen's.

A. Wiggins, a lumberman of Seawich, is at the Queen's.

Wood's Sarsaparilla builds up a broken down system. It begins its work right, that is, on the blood.

The itinerary of the Kaiser for the past year shows that since the same date in 1902 his Majesty has made 62 journeys, totalling 21,000 miles.

WEAKENED KIDNEYS

LEAD TO DIABETES AND BRIGHT'S DISEASE.

When the kidneys are weakened, the body is made foul and unhealthy with impure blood. The purification of the blood from waste and poisonous impurities can be accomplished only by healthy action of the kidneys.

When the kidneys give warnings of weakness or disease, may Heaven help you to realize that such conditions are serious menaces to life. When you are apprised of danger, do not delay the remedy. Use Dr. Fennell's Kidney-Wort Tablets; they always effect certain and rapid cures.

Kidney-Wort Tablets not only restore normal health to the kidneys, but they surely free the whole system from impurities. These wonderful little Tablets are carried conveniently in the vest or dress pocket, are always ready for use, and never cause liquid medicine's nausea to life. When you are apprised of danger, do not delay the remedy. Use Dr. Fennell's Kidney-Wort Tablets; they always effect certain and rapid cures.

When the kidneys give warnings of weakness or disease, may Heaven help you to realize that such conditions are serious menaces to life. When you are apprised of danger, do not delay the remedy. Use Dr. Fennell's Kidney-Wort Tablets; they always effect certain and rapid cures.

BROADSTREET'S REVIEW.

Toronto, July 10. — Broadstreet's trade review says: "Trade at Montreal has been fairly active the past week, considering the hot weather and the fact that this is the holiday season for the business. The factories and mills are very busy working on goods for the fall and winter. Labor is well employed at good wages. The demand in Eastern and Western provinces for staple goods is very firm. There are no surplus stocks offering and prices are fairly maintained.

Large shipments of fall goods are now being made. Payments on maturing obligations are being well met and mercantile failures are few and unimportant. In Toronto there has been a very fair movement in mercantile trade this week for this season. Travelers are sending in numerous and well distributed orders for the fall, and large discharging houses here are busy now making shipments to various retail trade centres of the country. Values of staple goods are fairly held, and there is no cutting in prices. While there is a general absence of speculative purchases by the retail merchants, the buying is generally on a larger scale than in former years.

Business conditions at Quebec, considering the midsummer season, are fairly active. The good crop prospects have caused country merchants to order more. The general outlook continues favorable, and, although payments in some quarters are rather slow, on the whole, satisfaction is generally expressed. A marked dullness is noticeable in shipping circles.

At Pacific Coast points there has been a good demand this week in jobbing circles for goods for the fall trade, and the outlook for a steady expansion in that connection for the next few months is good. The general conditions of trade are satisfactory. Payments have been a little slow lately and this is attributed to recent strikes. The coming bounty on lead will, it is expected, cause renewed activity in that important industry. Reports received at Winnipeg are to the effect that the condition of crops throughout the province, generally speaking, are good, and in the Territories the growth has been satisfactory. The outlook is for a crop fully as large as last year, although the yield in some sections may not be as large. Prices of staple goods are fairly held.

Business at Hamilton is active. The wholesale trades are still busy making large shipments to their customers. The sorting trade has been stimulated by the hot weather, and retailers are reporting large sales of seasonal goods. The wholesale trades are receiving large quantities of goods for the fall and stocks in that department will soon be complete. The outlook for business is encouraging.

The increased activity in retail trade at some important centres is due to the warm weather, which has caused a better demand from jobbers at London, and the movement of general trade this week has been very satisfactory. A large number of shipments for the fall are being made now, and the wholesale firms are busy receiving goods. Values of staple goods are firm.

In Ottawa, wholesale trade, as reported to Broadstreet's, has been fairly active. The excellent crop outlook and the steadily advancing prices of raw materials, which are now being reflected in the prices of the finished goods, have caused a better demand for the fall. The prospects for the immediate future in trade are very encouraging.

New York, July 10. — The Stock Exchange did as much business today in the first two hours of the session as was done during the entire session of the previous day, which was in turn more than twice as much as any recent day was. The market continued to dominate the whole market, and that stock's extreme decline of 6 1/2 points was the most considerable in the active list. Quite a number of leading speculative stocks were at one time from one to three points below the last high. Pennsylvania sold down to its previous low record at 12 1/2, but enormous buying orders at that level were immediately disclosed. The continued stream of New York Central stock coming upon the market as well as the fact that the effect of the effect of a contemplated stock issue or bond issue. Stocks of the subsidiary Vanderbilt companies, which are seldom dealt in, also suffered wide declines.

The first effective rally of the day came after the publication of estimates of weekly cash payments, to which a large number of receipts were added, on the interior movement of over \$8,000,000. The grain markets reflected the large closing up of accounts in expectation of appearance of the monthly crop statement after the close today, and speculation in stock was not able to keep much light on the crop situation from the movement of the grain markets. The market closed about steady at the late rally. Stocks were weak in sympathy with bonds. Total sales, par value, \$2,180,000. U. S. Bonds were unchanged on the last call.

Order from Turner Beeton & Co.

ARRANGE A FINE MINERAL EXHIBIT

Mining Industry to Be Well
Illustrated At Fall
Fair.

A meeting of the mineral committee of the B. C. Agricultural Association was held at the office of Messrs. Swinerton & Oddy, 102 Government street, last evening. There were present Mr. J. Baker, Alderman Yates and H. Mortimer Lamb. Mr. Lamb was appointed honorary secretary.

It was decided to make a specialty of an island mineral exhibit. Alderman Yates reported that Mr. Kiddie, the manager of the Tree smelter, had kindly promised to make a very complete exhibit, consisting of green ore, burnt ore, matte, and copper. The secretary was instructed to thank Mr. Kiddie for his offer, which would be greatly appreciated.

Mr. Lamb suggested that in order to demonstrate the advance made in mining on the island, photos of the buildings and improvements of the smelters, collieries, and metalliferous mines be obtained. This was referred to Mr. Lamb to attend to. Mr. Lamb was also asked to interview Mr. Tolmie, the Deputy Minister of Mines, and ask that his department co-operate in making a success of this exhibit, and if possible furnish the Minister of Mines' annual report, report on iron bodies, and Mr. Goswami's bulletin on mining, for the general information of the public at the exhibition; also to make an exhibit of ore and supply necessary show cases, as well as the statistical column showing the gold production of the province. If it could be arranged to supply an assay outfit, with assayer in charge, it was decided to do so, as it would prove of great interest generally.

It was also decided to ask Mr. Sutton to give a short historical sketch of the development of the mineral industry in Vancouver Island, to be printed in pamphlet form for distribution at the exhibition. The honorary secretary was requested to report at a later date on the cost of printing same, should Mr. Sutton consent to do so.

The question of space for the mineral exhibits was left with the chairman to report upon.

The secretary was instructed to write to Mr. R. E. Brett, the secretary of the British Columbia Mining Association, and to Mr. Rowland Machin, the chairman of the local board of the same association, asking for their co-operation.

The meeting then adjourned.

The Rhodes' Scholarships

Extracts From An Important
Memorandum Issued By
the Trustees.

First Selection In Canada Is
to Be Made Next
Spring.

Following are extracts from a memorandum issued by the trustees of the Rhodes scholarships in Canada. They contain much information concerning the election which is to be held next year.

"The first election of scholars in Canada under the Rhodes bequest will be made between February and May, 1904. The elected scholars will commence residence in October, 1904.

"A qualifying examination will be held within this period in each province, or at centres which can be easily reached. This examination is not competitive, but is intended to give assurance that all candidates are fully qualified to enter on a course of study at Oxford University.

"It will therefore be based on the requirements for residence—the first public examination—exacted by the university from each candidate for a degree.

"Papers will be prepared by examiners appointed by the trustees, and will be sent to each centre, where, at a date publicly announced, the examination will be held under proper supervision, and the papers returned to the examiners.

"A list of those who have successfully passed this test will be sent to the trustees, and from this list the committee of selection in each province, or to the university making the appointment, and from this list the committee of selection will proceed to elect the scholars.

"The committees and the universities making appointments will be furnished with a statement of the qualifications which Mr. Rhodes desired in the holders of his scholarships, and they will be asked in exercising their right of selection to comply as nearly as circumstances will permit with the spirit of the testator's wishes.

"They will also be asked to furnish to the trustees as full a statement as possible of the school and college career of each elected scholar, with the special character of his appointment, together with suggestions, if desired, as to the course of study for which he is best fitted.

"It has been decided that all scholars shall have resided at least one year at some recognized degree-granting university or college of Canada.

"Scholars must be unmarried, must be British citizens, and must be between 19 and 25 years of age.

"Candidates may elect whether they will apply for the scholarship of the province in which they have acquired the above-mentioned qualifications, or for that of the province in which they have their ordinary private domicile, home or residence. They must be prepared to present themselves for examination in the province of their selection. A candidate may compete in more than one province.

"Candidates should, during the month of January, 1904, notify the chairman of the committee of selection in the province for which they apply, or the head of the university appointing to the scholarship of their intention to present themselves for examination. The decision of the committee of selection of the university making appointments shall be final as regards eligibility.

"In British Columbia the selection of scholars will be made by the following committees: The Lieutenant-Governor, The Chief Justice, The Chief Superintendent of Education, The University of British Columbia, The University of Victoria, The University of New Brunswick, The University of Nova Scotia, The University of Prince Edward Island, The University of New Brunswick, The University of Nova Scotia, The University of Prince Edward Island.

"Any inquiries about Oxford, its colleges and the courses of study there, should be addressed to F. J. Wylie, Esq., the Oxford agent of the Rhodes trustees. The presidents of Canadian colleges are requested to send to Mr. Wylie, for the information of the trustees, copies of their annual calendar, and such other college literature as they may think useful.

"Copies of Oxford Responson papers for past years can be obtained from The Copp Clark Company, Toronto. The 'Students' Handbook of Oxford' can be ordered at the same address. It gives full information about the examinations of the university, subject to changes made since the last edition was issued.

"Oxford As It Is," a small pamphlet prepared by Mr. Louis Dyer, of Harvard and Balliol Colleges, for the use of American candidates, gives all essential information in a condensed form. It can also be ordered from The Copp Clark Company, Toronto.

"Oxford and its Colleges," written by

Mr. J. Wells, of Wadham College, and 'Oxford and Oxford Life,' edited by the same gentleman, may be recommended for those who wish to gain fuller information about the university and its colleges.

POWER OF THE CHECK BOOK.

There are traditions of offended millionaires buying up hotels for the sake of revenge upon the proprietor because of a stale sandwich or a discourtesy from the clerk. Usually the names are lacking, and the authenticity of the story is open to doubt. But we seem to be raising crops of Croesuses to whom such a purchase may be but an episode of the day's doings.

There is Mr. Schwab, for example. The contractor who is building his million-dollar mansion on Riverside drive having informed him that they could get no brick with which to continue the progress of the building interrupted, he went up the Hudson and bought a brickyard with its entire product. There being no bricklayers to lay the brick, he arranged with the union for them. And now he has a car of John W. Gates having no suitable carriage to take him to the Derby in Chicago, and buying two landaus for the occasion at the cost of \$8,000.

These are our Alexanders of finance, who cut Gordian knots with gold or dissolve them in thin air with a leaf torn from a check book. Doubtless if he had been necessary Mr. Gates would have purchased an entire carriage factory, and if the situation had demanded it Mr. Schwab would have bought a line kilt, a lumber yard, a plating mill and any other essential of building operations.

In the hands of a millionaire entirely great a check-book heats any number of worlds.—New York World.

HIS FIRST THOUGHT.

"Now, children," said the teacher of the kindergarten class, trying to bring to the attention of the scholars the motive force of the game, "what is it that goes quickly from place to place?"

"I know," quickly said Tommy. "Well, Tommy, what is it that goes quickly from place to place?"

"A check, ma'am," Yankee Statesman.

CHARLES ON BACK FROM THE YUKON

Constructor of Telegraph Line
Concludes Trip of
Investigation.

Mr. J. B. Charleson, the constructor, under the government, of the Yukon telegraph line, has returned to the Coast from a trip to Dawson, accompanied by Miss Charleson and Mr. J. Y. Rochester, auditor, and the private secretary, Mr. J. E. Gobell.

Mr. Charleson's present visit to the scene of his labors in 1899 and 1900 has a special and rather unfortunate significance. Owing to numerous complaints respecting the management and general operation of the line, and also to the difficulty experienced by him and his assistants in securing prompt and detailed reports, it was decided by the Minister of Public Works to send out a competent man to give him a general report upon the line and its management. Owing to Mr. Charleson's past connection with the system and his detailed knowledge of all its workings, he was selected to make this investigation.

His commission giving him authority to look into and report upon all departments of the service and also conferring the powers of superintendence of the system, if necessary.

Mr. Charleson expects to remain in Vancouver about nine days, after which he will leave for the Skeena and go over the section to Hazelton. He will then visit the Ashcroft-Quebec section, which will complete his work and enable him, he hopes, to leave for Ottawa the first week in September.

The line on the northern section has been left in first-class shape, having been thoroughly overhauled from Hazelton to the northern boundary line and that without the aid of any extra help, the various men doing the work of this portion of the line have also received their salaries for the next 12 months, and all salaries on the line have been paid up to June 1 last.

While up North, Mr. Charleson met Capt. Otto A. Nasmith, of the United States signal service, who has been appointed to take charge of the Vanderkame cable which connects with the Yukon telegraph system, and was informed by him that it would be opened about the 16th of this month. The cable and connecting or land wire are about 1,500 miles long, and were commenced in 1890.

Were Victors in Garrison Finish

Haynes Timely Three-Bagger
Wins Game for the
Maroons.

Schwengers Work With the Wil-
low—Chase's Debut as
a Twirler.

Before the gaze of an anxious crowd, the long, lithe, graceful form of Haynes, the Maroon pitcher, was seen in the act of throwing the ball. "Oh say—will he make good?"

Yet, so calm and peaceful there he stood, and well he poised his bat. While each fan sat in expectant mood, and shivered as he sat.

Two strikes whirled swiftly across the plate. Oh Mama—shall it be! And say—Oh what shall be the doctor's fate if the umpire says—"Strike three?"

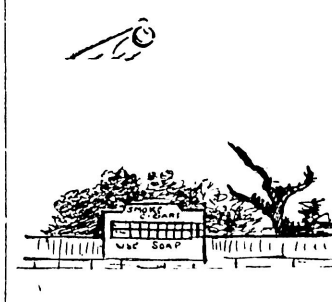

On the board there read an even score. The crowd was all astir. For each fan felt that the game was over if Doc did not deliver.

And then—the pitcher poised the ball—he threw a pretty drop. And right on its nose—"old Doc" let fall. He landed hard—scoring 111!

L'ENVOI.
And if you ask of the baseball fan, how the great game was won, he'll think how the centre fielder ran—of what Doc Haynes had done.

The goods delivered by Dr. Haynes in last evening's game between Schöck's bunch and the home aggregation were certainly up to the finest sample going. The play was very even from start to finish, the hits and errors being pretty evenly divided between the respective teams. The score was tied in the fifth inning, when it was made seven all. Everett was balked in the sixth and seventh, and Victoria also failed to break away into open running in the sixth. In the seventh, which had been agreed upon as the end of the game, the Maroons delivered a sensational finish, which put the audience into good humor, for it was one of those happy occasions where the very thing happened which every one was praying for, but which hardly anyone expected would really occur.

The situation was just like this. Victoria had two men gone. Burnes was on

How the scenery looked when Doc Haynes delivered the goods.

second and Haynes at bat. A two-sacker would just do the business nicely, but without any depreciation of Haynes' batting powers, there were heavy loads against him doing the trick. For Buchole was twirling in most effective style. The grand finale in the exciting contest came very quickly when it did happen. Haynes was poised his stick in his customary laissez-faire style. The plate seemed as far away to Burnes as the other side of the world. And while every one was thinking and wishing and fervently hoping that the Doc would show himself a "diamond in the rough," the silence which pervaded the grand stand during the intense and anxious moments of expectancy, suddenly broke into an unrestrained roar of gratification and exultation. For the doctor had performed the trick by smashing the sphere clear over the Everett centre fielder's head, and Burnes came tearing around the bases like an automobile on a level track.

There was another in the string of victories which have been secured by the home team this season. A great big chunk of the credit in winning the game therefore incommensurately belongs to Haynes, and his good work the fans can afford to treat him with forbearance if he happens to fall down on a future occasion.

It was an ideal spectators' game, and also presented all the features to arouse the interest and enthusiasm of a home audience. The reputation of the Everett nine, is the opinion of those who have seen the team in action, is well founded. Their long track of all games played, and the fact that they have won the Victoria. Most people expected the

visitors to have an easy thing. The fans reasoned that, Everett having defeated San Francisco by 6 to 4, and San Francisco the very next day having turned down Seattle by 7 to 2, it was hard to figure out where Victoria would come in. To take one from Everett, with Buchole, an ex-Sexton leaguer, in the box, is strictly all right.

Chase made his debut as a pitcher, and his work was most satisfactory. Everett only carried one out of the seven scored, whilst Victoria earned four. Chase's fielding was of the phenomenal order. Several times he retired batters at first by magnificent throwing on most difficult chances. When did not show up well behind the bat, his throwing to bases being somewhat erratic. He gave a very weak exhibition at the bat, but he made good, though. For it may be set down in extenuation of his performance of yesterday, that he has not recovered from his recent sea voyage. Schwengers batted at .725 clip, and one of his three home runs was for three mowers, and another for two. He dropped two thrown balls at first, one being very costly, for a runner came across the plate before he could gather it up and pass it to Whalen. Schwengers' double in the fifth inning was most timely, for he scored Smith and McConnell, Burnes following with a double soon afterwards. McConnell also had his eye on the ball, securing a very effective single and a double, whilst Smith made a bingo for the first three times at bat.

For the visitors, K. Williams obtained four hits for four times at bat, of which one was a triple. Kane also got a triple. Burnes made a bad break in the fifth

When the roster got busy in the seventh.

innings, when he held a ball, which Burnes had charged to slip from his fingers on a throw from Whalen. Burnes for some unaccountable reason refrained from throwing the ball in until Lent had run in from third with the tying run. McConnell also made an error of a ble error in the fourth, when, with only one out, he tried to make home on a foul fly.

The game today should prove a fine contest, as Schöck and Burnes are on the points, and the home boys having found that they were able to more than hold the Everetts yesterday, should have any amount of confidence, even with the fact Schöck sailing in his speedy benders.

The score of last night's game follows: EVERETT. A. B. R. H. P. O. A. E. Dineen, c. 3 1 0 7 0 1 0. K. Williams, i. f. 4 1 4 2 0 0 0. Kane, 3 b. 4 0 1 0 1 1 0. Burns, 2 b. 4 0 1 0 1 1 0. Lindberg, 2 b. 4 1 1 4 0 1 0. Schwengers, 1 b. 4 2 3 11 0 2 0. Burnes, c. f. 4 1 1 1 0 1 0. Everett, 2 b. 4 0 1 1 0 1 0. Buchole, p. 4 0 0 0 1 0 0. Total 37 7 10 19 5 3 0.

VICTORIA. A. B. R. H. P. O. A. E. Smith, 1 b. 4 2 3 0 0 0 0. Hiltner, 3 b. 4 2 0 1 0 1 0. Burns, 2 b. 4 2 0 1 0 1 0. McConnell, s. s. 4 1 2 0 4 0 0. Schwengers, 1 b. 4 2 3 11 0 2 0. Burnes, c. f. 4 1 1 1 0 1 0. Burnes, 2 b. 4 0 1 1 0 1 0. Howard, r. f. 4 0 0 0 0 0 0. Total 34 8 11 21 13 5 0.

Everett 3 1 3 1 1 0 0—7. Victoria 4 0 1 2 0 0 1—8.

*Whalen out, hit by batted ball. Two men out when whaling run was scored.

Summary—Earned runs, Everett 1, Victoria 4; struck out by Buchole 4, by Chase 6; bases on balls, of Chase 2; hit by pitcher, of Chase 2; wild pitches, of Chase 1; errors, of Everett 1, of Victoria 1; two base hits, McConnell, Burnes; three base hits, Haynes, K. Williams, Kane. Time of game, one hour and forty minutes. Umpire, W. Wriglesworth.

THE WEATHER.

Meteorological Office,
Victoria, July 10—8 p. m.

SYNOPSIS.

A moderate low barometer area is crossing this morning from the Pacific, it is causing rain in British Columbia and will probably be followed by fresh westerly winds on the coast. The temperature is moderate, but warmer throughout the Pacific Slope; the temperature rose to 80 on the Lower Main and to 85 on the coast. In the interior, the temperature is reported from Swift Current to Winnipeg.

TEMPERATURE.

Victoria 50.47. New Westminster 48.78. Kamloops 64.84. Nanaimo 62.42. Dawson 42.61. Calgary 42.72. Winnipeg 42.62. Portland, Ore. 56.84. San Francisco 48.58.

FORECASTS.

For 24 hours from 6 a. m. (Pacific time) Saturday.

Victoria and Vicinity: Moderate or fresh winds, chiefly westerly, generally fair weather.

Lower Mainland: Light or moderate winds, generally fair and warm.

VICTORIA DAILY RECORD.

5 a. m. Calm.

Noon 8 miles south.

5 p. m. 8 miles southwest.

Average steady breeze from S. by S. W. Sunshine—12 hours, 48 minutes.

Barometer at noon—Observed 30.060.

NEW WESTMINSTER.

Barometer at 5 p. m.—Corrected 29.91.

innings, when he held a ball, which Burnes had charged to slip from his fingers on a throw from Whalen. Burnes for some unaccountable reason refrained from throwing the ball in until Lent had run in from third with the tying run. McConnell also made an error of a ble error in the fourth, when, with only one out, he tried to make home on a foul fly.

The game today should prove a fine contest, as Schöck and Burnes are on the points, and the home boys having found that they were able to more than hold the Everetts yesterday, should have any amount of confidence, even with the fact Schöck sailing in his speedy benders.

The score of last night's game follows: EVERETT.

A. B. R. H. P. O. A. E. Dineen, c. 3 1 0 7 0 1 0. K. Williams, i. f. 4 1 4 2 0 0 0. Kane, 3 b. 4 0 1 0 1 1 0. Burns, 2 b. 4 0 1 0 1 1 0. Lindberg, 2 b. 4 1 1 4 0 1 0. Schwengers, 1 b. 4 2 3 11 0 2 0. Burnes, c. f. 4 1 1 1 0 1 0. Everett, 2 b. 4 0 1 1 0 1 0. Buchole, p. 4 0 0 0 1 0 0. Total 37 7 10 19 5 3 0.

VICTORIA.

A. B. R. H. P. O. A. E. Smith, 1 b. 4 2 3 0 0 0 0. Hiltner, 3 b. 4 2 0 1 0 1 0. Burns, 2 b. 4 2 0 1 0 1 0. McConnell, s. s. 4 1 2 0 4 0 0. Schwengers, 1 b. 4 2 3 11 0 2 0. Burnes, c. f. 4 1 1 1 0 1 0. Burnes, 2 b. 4 0 1 1 0 1 0. Howard, r. f. 4 0 0 0 0 0 0. Total 34 8 11 21 13 5 0.

Everett 3 1 3 1 1 0 0—7. Victoria 4 0 1 2 0 0 1—8.

*Whalen out, hit by batted ball. Two men out when whaling run was scored.

Summary—Earned runs, Everett 1, Victoria 4; struck out by Buchole 4, by Chase 6; bases on balls, of Chase 2; hit by pitcher, of Chase 2; wild pitches, of Chase 1; errors, of Everett 1, of Victoria 1; two base hits, McConnell, Burnes; three base hits, Haynes, K. Williams, Kane. Time of game, one hour and forty minutes. Umpire, W. Wriglesworth.

THE WEATHER.

Meteorological Office,
Victoria, July 10—8 p. m.

SYNOPSIS.

A moderate low barometer area is crossing this morning from the Pacific, it is causing rain in British Columbia and will probably be followed by fresh westerly winds on the coast. The temperature is moderate, but warmer throughout the Pacific Slope; the temperature rose to 80 on the Lower Main and to 85 on the coast. In the interior, the temperature is reported from Swift Current to Winnipeg.

TEMPERATURE.

Victoria 50.47. New Westminster 48.78. Kamloops 64.84. Nanaimo 62.42. Dawson 42.61. Calgary 42.72. Winnipeg 42.62. Portland, Ore. 56.84. San Francisco 48.58.

FORECASTS.

For 24 hours from 6 a. m. (Pacific time) Saturday.

Victoria and Vicinity: Moderate or fresh winds, chiefly westerly, generally fair weather.

Lower Mainland: Light or moderate winds, generally fair and warm.
